Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: Homefit Pro

App URL: https://play.google.com/store/apps/details?id=com.aidoru.HomeFit

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to gather comprehensive feedback on HomeFit PRO. Additionally, we reached out to our target audience—fitness enthusiasts and home workout users—to collect real-world insights and ensure the app meets their needs effectively.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers actively engaged with HomeFit PRO, providing valuable feedback on functionality, user experience, and feature requests. Their input helped us

identify key areas for improvement, leading to enhanced usability and a more user-friendly interface tailored to their workout needs.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Feedback highlighted the need for a dynamic walkthrough for new users, dark mode support, and the inclusion of privacy policy pages. We collected insights through surveys and direct communication, ensuring a thorough understanding of tester experiences and expectations.

---

5) Who is the intended audience for your app?

HomeFit PRO is designed for fitness enthusiasts who prefer training at home or in the gym. It caters to users seeking a flexible, equipment-smart workout companion that adapts to their available resources and personal training goals, without ads or subscriptions.

---

6) Describe how your app provides value to the users.

HomeFit PRO offers a personalized workout experience with 200+ exercises, 3D demonstrations, and offline functionality. Users can create customized

routines, track progress, and access ready-made workouts, making fitness accessible, efficient, and enjoyable anytime, anywhere.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

We prioritized implementing a dynamic walkthrough for new users, added a dark mode for user comfort, and integrated privacy policy and terms of service pages. These enhancements significantly improve user onboarding and trust, while refining the overall experience.

---

9) How did you decide that your app is ready for production?

After rigorous testing and collecting insightful feedback from diverse users, we resolved critical issues, enhanced key features, and ensured compliance with legal standards. The app is now stable, user-friendly, and fully optimized for a successful launch on Google Play.

10) What did you do differently this time?

This time, we focused on user onboarding by introducing a dynamic walkthrough, addressing user comfort with dark mode, and ensuring legal compliance with privacy policies. These strategic changes have led to a more polished app that meets user expectations effectively.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
